DETAILED ACTION

Election/Restrictions

6. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 18-26, drawn to a method of treating, filtering and cleaning a working medium.

Group II, claim(s) 19, drawn to a method of treating, filtering and cleaning a working medium.

Group III, claim(s) 27-36, drawn to an apparatus for treating, filtering and cleaning a working medium.

7. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature among the three groups of claims is a filter/method of filtering requiring a filter in a filter house adjoined by a discharging arrangement. However, these arrangements are extremely well-known in the art. For example, G. Blaufuss (2038921) teaches a filter housing (fig. 1, 2) with a filter (5) that builds up a filter cake (dotted lines around 11 and 10). The apparatus also comprises a scraper to remove the filter cake from the filters (31). Therefore, the instant application makes no contribution over the prior art. As such, the groups lack unity of invention.

8. A telephone call was made to Barry L. Kelmachter on 7/13/2010 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ALLISON GIONTA whose telephone number is (571)270-1767. The examiner can normally be reached on M-F: 9am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vickie Kim can be reached on (571)272-0579. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
